

## The cabins of Domaine de l'Oust'ellerie

Unusual accommodation: Four wooden cabins welcome you from early April to late October, near the Nantes-Brest canal and on the Vélodyssée route.

Designed for cyclotourists by a local company, they welcome all types of hikers and other interested parties.

Each hut is equipped with 2 single mattresses and a sheltered platform at the front (with a retractable table and 2 seats).

At the rear, a shelter provides storage for 2 bicycles.

A badge for access to the sanitary facilities (WC and shower) behind the lock is attached to the cabin's key ring (see below).
